This video shows video director Tim Bevan how development team members have been enhancing the gameplay in FIFA 22 using "HyperMotion Technology." How Motion Capture Is Achieved This video shows "FIFA 19 Motion Capture" in more detail. Where Motion Capture Data Is Used This video highlights in more detail the various ways FIFA 22 has used player motion capture data to achieve the new gameplay features. "Motion Capture Technology" - How It Works This video shows FIFA 19 producer Sascha Meinrath providing an overview of the "Motion Capture Technology" that powers the improvements to gameplay. Player Movement & Run & Tackle Algorithms This video highlights player movement, the new run & tackle algorithms and how teams can cause the best reactions from opponents using these new gameplay features. Impact of Player Exertion This video highlights how "Impact Of Player Exertion" makes game-changing, dynamic decisions in the gameplay. Aerial Duels This video highlights the new "Dynamic Aerial Duel" feature in FIFA 22, which creates a continuous state of action on the ball. Quick Blitz Game This video shows how the game can now support players who have more pace and burst, because of the increased movement speed and acceleration in FIFA 22. Midfield Ball Switch This video highlights the new Ball Switch feature in FIFA 22, which lets players influence the ball dynamically, in order to execute beautiful passes and free kicks. Player Learning Curve This video shows how the learning curve in the game has been reduced significantly. Coverage Area This video highlights how the "Coverage Area" feature builds a bigger zone around the player and therefore contributes to increased protection around the goalkeeper, and how this feature also contributes to better timing and clarity for headers. "Ball Possession" This video highlights how more ball possession is finally being rewarded in FIFA 22. "Possession & Control" This video demonstrates how the "Possession & Control" feature in FIFA 22 allows players to possess the ball in increasingly smarter ways, contributing to the overall risk-benefit ratio. "Fly Player Control" This video showcases the new feature for controlling players who have used "Flyers" in

What's new:

- **Take on rivalries, head-to-head, in the ultimate player versus player experience. Head-to-head games are now twice as tough, and you can enter a game with similar ratings and boost those players to make a competitive challenge out of it.**

-
- **New partnership with EA SPORTS. FIFA 22 has teamed up with EA SPORTS to put players' skills to the test on Xbox and PlayStation, making them the first videogame to endorse EA SPORTS titles.**
 - **The Real Player Motion Engine uses motion capture data from real-life players, allowing you to take your controls to a whole new level. And with new interactive elements, such as ball control, adjustable weights, triggered punches and more, you can now bring your players' touches, touches and touches to life.**
 - **Ligaments now react realistically when players make contact, reacting to player intensity and how high the ball is whipped into the air. This reacts to your player's movements and tackles, and helps create a more realistic felt experience.**
 - **The GLOBAL INK FOREVER SERIES incorporates the real world animation throughout the game with more realistic animations. New players are completely different from new managers and kits get completely different this year too, so 2018 is the year of change in footballing glitterati.**
 - **You've got the ultimate tattoo, no?! FIFA players can now put their own unique mark on their bodies by getting a tattoo, adding their name or an advertisement to an existing star tattoo. Learn more about the latest FREE tattoo features in FIFA 22 and take your skills to the next level.**
