Love Story: The Beach Cottage Features Key:

Tactile Paddle controls. The Anglerfish uses touch to determine the direction and force to be applied with the paddle (left, right, down, up).

Flash 5 difficulty settings: easy, medium, hard, insane

Easy turn & search. The Anglerfish can not only search for prey but also go in any direction. Stop it if you want it to do anything.

Swimming. Even if the Anglerfish isn't actually paddling, it can still move through the water at high speeds.

Fluid movement. The fish can go across the water in any direction at any speed. Stop it if you want it to do anything.

Prey capture. Prey detection, directional sense, predator detection, flee, search, move to eat. Prey can move. Prey can even hide. The Anglerfish will find the prey.

Tugboat: Captain, are we allowed to eat that? No, fank, we can't.

Paddle: Captain, there's something in the water. Repeat that.
Paddle: There's something in the water. Captain! There's something in the water!

Captain: Get the plankton net ready! Preparing the plankton net. Shining the plankton net along the water. Captain: Plankton net ready, Fishing time! Fishing time!

Outpost Magazine's official quote:

"Great game with a lot of features, this and Tugboat Fishing Fleet are both fun and yet challenging."

DNA is a motorbike testing and reporting website. They offer a service where you can submit your own bike for testing and pricing, and they keep track of your motorcycle throughout its lifetime and publish an ual report with all the tests it has been through. You can read more about their service on their FAQs page and on their About page. Erik Your Guide To Testing Motorcycles Welcome to MotoDNA! If you're dering where to begin when it comes to testing motorcycles, MotoDNA is here to help. Powered by a not-for-profit initiative, we aim to help you find out the true value of your motorcycle before you buy it. ther you're looking to find a new motorbike or you're hoping to discover the best value you can find of one you already own; we're here to help you make your next motorcycle purchase a great one. In fact, that's of the reasons we're here: to make sure that you find the perfect value motorcycle for you. For this reason, we only test motorbikes that we would consider to be truly value for money, and which we'd want to ourselves. So each year we publish an Annual Review of a company and its products, describing what these are and what you can expect of them during the year. As well as this, we offer our official bike ations, with these coming as a monthly service. Why test our own bikes? We're not here to rip off anyone. And yet, we know that many motorcycle purchasers want an expert opinion
